Assaults Total	9	1.8	7.4
Disturbing the Peace	6	1.1	3.8
TOTAL OFFENCES	153	29.9	79.1

Population 15 Years and Over 5,110

Caution: Offence rates may be due to enforcement practices as well as the activities of the general population.

Note: Offence rates are calculated per 1,000 persons 15 years and older. Minor discrepancies in rate totals are due to rounding. Only that portion of Dangerous Driving, Assault, and Disturbing the Peace offences which are alcohol related are included in the offence totals. Impaired and Dangerous Operation of a Motor Vehicle offences include Impaired and Dangerous Operation of a Boat, Vessel, or Aircraft offences. The latter constitute 0.5% of all Drinking and Driving offences (52 of 9,824). While there are five main categories of drug offences (possession, trafficking, cultivating, and importing and exporting), 85% of cannabis offences are for possession, as are 35% of cocaine and restricted drug offences, 66% of heroin offences and 88% of other drug offences. All controlled drug offences are for trafficking.

Sources: Canadian Centre for Justice Statistics for all offence data except for public drunkenness offence data which are provided by the 'F' Division of the RCMP and municipal police forces; and Statistics Canada, Health and Welfare Canada and the Saskatchewan Health Insurance Registration Information System for population data. (See SADAC, 'Legal Offences in Saskatchewan: the Alcohol and Drug Connection' for discussion of methodology.)

TOTAL OFFENCES	48	21.1	79.1

Population 15 Years and Over 2,259

Caution: Offence rates may be due to enforcement practices as well as the activities of the general population.

Note: Offence rates are calculated per 1,000 persons 15 years and older. Minor discrepancies in rate totals are due to rounding. Only that portion of Dangerous Driving, Assault, and Disturbing the Peace offences which are alcohol related are included in the offence totals. Impaired and Dangerous Operation of a Motor Vehicle offences include Impaired and Dangerous Operation of a Boat, Vessel, or Aircraft offences. The latter constitute 0.5% of all Drinking and Driving offences (52 of 9,824). While there are five main categories of drug offences (possession, trafficking, cultivating, and importing and exporting), 85% of cannabis offences are for possession, as are 35% of cocaine and restricted drug offences, 66% of heroin offences and 88% of other drug offences. All controlled drug offences are for trafficking.

Sources: Canadian Centre for Justice Statistics for all offence data except for public drunkenness offence data which are provided by the 'F' Division of the RCMP and municipal police forces; and Statistics Canada, Health and Welfare Canada and the Saskatchewan Health Insurance Registration Information System for population data. (See SADAC, 'Legal Offences in Saskatchewan: the Alcohol and Drug Connection' for discussion of methodology.)

Population 15 Years and Over 1,061

Caution: Offence rates may be due to enforcement practices as well as the activities of the general population.

Note: Offence rates are calculated per 1,000 persons 15 years and older. Minor discrepancies in rate totals are due to rounding. Only that portion of Dangerous Driving, Assault, and Disturbing the Peace offences which are alcohol related are included in the offence totals. Impaired and Dangerous Operation of a Motor Vehicle offences include Impaired and Dangerous Operation of a Boat, Vessel, or Aircraft offences. The latter constitute 0.5% of all Drinking and Driving offences (52 of 9,824). While there are five main categories of drug offences (possession, trafficking, cultivating, and importing and exporting), 85% of cannabis offences are for possession, as are 35% of cocaine and restricted drug offences, 66% of heroin offences and 88% of other drug offences. All controlled drug offences are for trafficking.

Sources: Canadian Centre for Justice Statistics for all offence data except for public drunkenness offence data which are provided by the 'F' Division of the RCMP and municipal police forces; and Statistics Canada, Health and Welfare Canada and the Saskatchewan Health Insurance Registration Information System for population data. (See SADAC, 'Legal Offences in Saskatchewan: the Alcohol and Drug Connection' for discussion of methodology.)

Disturbing the Peace	16	3.2	3.8
TOTAL OFFENCES	135	26.6	79.1

Population 15 Years and Over 5,098

Caution: Offence rates may be due to enforcement practices as well as the activities of the general population.

Note: Offence rates are calculated per 1,000 persons 15 years and older. Minor discrepancies in rate totals are due to rounding. Only that portion of Dangerous Driving, Assault, and Disturbing the Peace offences which are alcohol related are included in the offence totals. Impaired and Dangerous Operation of a Motor Vehicle offences include Impaired and Dangerous Operation of a Boat, Vessel, or Aircraft offences. The latter constitute 0.5% of all Drinking and Driving offences (52 of 9,824). While there are five main categories of drug offences (possession, trafficking, cultivating, and importing and exporting), 85% of cannabis offences are for possession, as are 35% of cocaine and restricted drug offences, 66% of heroin offences and 88% of other drug offences. All controlled drug offences are for trafficking.

Sources: Canadian Centre for Justice Statistics for all offence data except for public drunkenness offence data which are provided by the 'F' Division of the RCMP and municipal police forces; and Statistics Canada, Health and Welfare Canada and the Saskatchewan Health Insurance Registration Information System for population data. (See SADAC, 'Legal Offences in Saskatchewan: the Alcohol and Drug Connection' for discussion of methodology.)

TOTAL OFFENCES	193	80.0	79.1

Population 15 Years and Over 2,413

Caution: Offence rates may be due to enforcement practices as well as the activities of the general population.

Note: Offence rates are calculated per 1,000 persons 15 years and older. Minor discrepancies in rate totals are due to rounding. Only that portion of Dangerous Driving, Assault, and Disturbing the Peace offences which are alcohol related are included in the offence totals. Impaired and Dangerous Operation of a Motor Vehicle offences include Impaired and Dangerous Operation of a Boat, Vessel, or Aircraft offences. The latter constitute 0.5% of all Drinking and Driving offences (52 of 9,824). While there are five main categories of drug offences (possession, trafficking, cultivating, and importing and exporting), 85% of cannabis offences are for possession, as are 35% of cocaine and restricted drug offences, 66% of heroin offences and 88% of other drug offences. All controlled drug offences are for trafficking.

Sources: Canadian Centre for Justice Statistics for all offence data except for public drunkenness offence data which are provided by the 'F' Division of the RCMP and municipal police forces; and Statistics Canada, Health and Welfare Canada and the Saskatchewan Health Insurance Registration Information System for population data. (See SADAC, 'Legal Offences in Saskatchewan: the Alcohol and Drug Connection' for discussion of methodology.)

Assault Police	3	0.8	0.3
Other Assaults	-	-	0.4
Assaults Total	52	12.0	7.4
Disturbing the Peace	200	46.6	3.8
TOTAL OFFENCES	985	228.9	79.1

Population 15 Years and Over 4,305

Caution: Offence rates may be due to enforcement practices as well as the activities of the general population.

Note: Offence rates are calculated per 1,000 persons 15 years and older. Minor discrepancies in rate totals are due to rounding. Only that portion of Dangerous Driving, Assault, and Disturbing the Peace offences which are alcohol related are included in the offence totals. Impaired and Dangerous Operation of a Motor Vehicle offences include Impaired and Dangerous Operation of a Boat, Vessel, or Aircraft offences. The latter constitute 0.5% of all Drinking and Driving offences (52 of 9,824). While there are five main categories of drug offences (possession, trafficking, cultivating, and importing and exporting), 85% of cannabis offences are for possession, as are 35% of cocaine and restricted drug offences, 66% of heroin offences and 88% of other drug offences. All controlled drug offences are for trafficking.

Sources: Canadian Centre for Justice Statistics for all offence data except for public drunkenness offence data which are provided by the 'F' Division of the RCMP and municipal police forces; and Statistics Canada, Health and Welfare Canada and the Saskatchewan Health Insurance Registration Information System for population data. (See SADAC, 'Legal Offences in Saskatchewan: the Alcohol and Drug Connection' for discussion of methodology.)

TOTAL OFFENCES	126	32.1	79.1
Population 15 Years and Over	3,915		

Caution: Offence rates may be due to enforcement practices as well as the activities of the general population.

Note: Offence rates are calculated per 1,000 persons 15 years and older. Minor discrepancies in rate totals are due to rounding. Only that portion of Dangerous Driving, Assault, and Disturbing the Peace offences which are alcohol related are included in the offence totals. Impaired and Dangerous Operation of a Motor Vehicle offences include Impaired and Dangerous Operation of a Boat, Vessel, or Aircraft offences. The latter constitute 0.5% of all Drinking and Driving offences (52 of 9,824). While there are five main categories of drug offences (possession, trafficking, cultivating, and importing and exporting), 85% of cannabis offences are for possession, as are 35% of cocaine and restricted drug offences, 66% of heroin offences and 88% of other drug offences. All controlled drug offences are for trafficking.

Sources: Canadian Centre for Justice Statistics for all offence data except for public drunkenness offence data which are provided by the 'F' Division of the RCMP and municipal police forces; and Statistics Canada, Health and Welfare Canada and the Saskatchewan Health Insurance Registration Information System for population data. (See SADAC, 'Legal Offences in Saskatchewan: the Alcohol and Drug Connection' for discussion of methodology.)

Assaults Total	35	4.4	7.4
Disturbing the Peace	16	2.0	3.8
TOTAL OFFENCES	378	46.5	79.1

Population 15 Years and Over 8,132

Caution: Offence rates may be due to enforcement practices as well as the activities of the general population.

Note: Offence rates are calculated per 1,000 persons 15 years and older. Minor discrepancies in rate totals are due to rounding. Only that portion of Dangerous Driving, Assault, and Disturbing the Peace offences which are alcohol related are included in the offence totals. Impaired and Dangerous Operation of a Motor Vehicle offences include Impaired and Dangerous Operation of a Boat, Vessel, or Aircraft offences. The latter constitute 0.5% of all Drinking and Driving offences (52 of 9,824). While there are five main categories of drug offences (possession, trafficking, cultivating, and importing and exporting), 85% of cannabis offences are for possession, as are 35% of cocaine and restricted drug offences, 66% of heroin offences and 88% of other drug offences. All controlled drug offences are for trafficking.

Sources: Canadian Centre for Justice Statistics for all offence data except for public drunkenness offence data which are provided by the 'F' Division of the RCMP and municipal police forces; and Statistics Canada, Health and Welfare Canada and the Saskatchewan Health Insurance Registration Information System for population data. (See SADAC, 'Legal Offences in Saskatchewan: the Alcohol and Drug Connection' for discussion of methodology.)

Disturbing the Peace	8	1.6	3.8
TOTAL OFFENCES	199	41.4	79.1

Population 15 Years and Over 4,800

Caution: Offence rates may be due to enforcement practices as well as the activities of the general population.

Note: Offence rates are calculated per 1,000 persons 15 years and older. Minor discrepancies in rate totals are due to rounding. Only that portion of Dangerous Driving, Assault, and Disturbing the Peace offences which are alcohol related are included in the offence totals. Impaired and Dangerous Operation of a Motor Vehicle offences include Impaired and Dangerous Operation of a Boat, Vessel, or Aircraft offences. The latter constitute 0.5% of all Drinking and Driving offences (52 of 9,824). While there are five main categories of drug offences (possession, trafficking, cultivating, and importing and exporting), 85% of cannabis offences are for possession, as are 35% of cocaine and restricted drug offences, 66% of heroin offences and 88% of other drug offences. All controlled drug offences are for trafficking.

Sources: Canadian Centre for Justice Statistics for all offence data except for public drunkenness offence data which are provided by the 'F' Division of the RCMP and municipal police forces; and Statistics Canada, Health and Welfare Canada and the Saskatchewan Health Insurance Registration Information System for population data. (See SADAC, 'Legal Offences in Saskatchewan: the Alcohol and Drug Connection' for discussion of methodology.)

Only that portion of Dangerous Driving, Assault, and Disturbing the Peace offences which are alcohol related are included in the offence totals. Impaired and Dangerous Operation of a Motor Vehicle offences include Impaired and Dangerous Operation of a Boat, Vessel, or Aircraft offences. The latter constitute 0.5% of all Drinking and Driving offences (52 of 9,824). While there are five main categories of drug offences (possession, trafficking, cultivating, and importing and exporting), 85% of cannabis offences are for possession, as are 35% of cocaine and restricted drug offences, 66% of heroin offences and 88% of other drug offences. All controlled drug offences are for trafficking.

TOTAL OFFENCES	65	148.2	79.1
Population 15 Years and Over		438	

Caution: Offence rates may be due to enforcement practices as well as the activities of the general population.

Note: Offence rates are calculated per 1,000 persons 15 years and older. Minor discrepancies in rate totals are due to rounding. Only that portion of Dangerous Driving, Assault, and Disturbing the Peace offences which are alcohol related are included in the offence totals. Impaired and Dangerous Operation of a Motor Vehicle offences include Impaired and Dangerous Operation of a Boat, Vessel, or Aircraft offences. The latter constitute 0.5% of all Drinking and Driving offences (52 of 9,824). While there are five main categories of drug offences (possession, trafficking, cultivating, and importing and exporting), 85% of cannabis offences are for possession, as are 35% of cocaine and restricted drug offences, 66% of heroin offences and 88% of other drug offences. All controlled drug offences are for trafficking.

Sources: Canadian Centre for Justice Statistics for all offence data except for public drunkenness offence data which are provided by the 'F' Division of the RCMP and municipal police forces; and Statistics Canada, Health and Welfare Canada and the Saskatchewan Health Insurance Registration Information System for population data. (See SADAC, 'Legal Offences in Saskatchewan: the Alcohol and Drug Connection' for discussion of methodology.)

Impaired and Dangerous Operation of a Motor Vehicle offences include Impaired and Dangerous Operation of a Boat, Vessel, or Aircraft offences. The latter constitute 0.5% of all Drinking and Driving offences (52 of 9,824). While there are five main categories of drug offences (possession, trafficking, cultivating, and importing and exporting), 85% of cannabis offences are for possession, as are 35% of cocaine and restricted drug offences, 66% of heroin offences and 88% of other drug offences. All controlled drug offences are for trafficking.

Assaults Total	40	3.5	7.4
Disturbing the Peace	5	0.4	3.8
TOTAL OFFENCES	1,071	93.9	79.1

Population 15 Years and Over 11,397

Caution: Offence rates may be due to enforcement practices as well as the activities of the general population.

Note: Offence rates are calculated per 1,000 persons 15 years and older. Minor discrepancies in rate totals are due to rounding. Only that portion of Dangerous Driving, Assault, and Disturbing the Peace offences which are alcohol related are included in the offence totals. Impaired and Dangerous Operation of a Motor Vehicle offences include Impaired and Dangerous Operation of a Boat, Vessel, or Aircraft offences. The latter constitute 0.5% of all Drinking and Driving offences (52 of 9,824). While there are five main categories of drug offences (possession, trafficking, cultivating, and importing and exporting), 85% of cannabis offences are for possession, as are 35% of cocaine and restricted drug offences, 66% of heroin offences and 88% of other drug offences. All controlled drug offences are for trafficking.

Sources: Canadian Centre for Justice Statistics for all offence data except for public drunkenness offence data which are provided by the 'F' Division of the RCMP and municipal police forces; and Statistics Canada, Health and Welfare Canada and the Saskatchewan Health Insurance Registration Information System for population data. (See SADAC, 'Legal Offences in Saskatchewan: the Alcohol and Drug Connection' for discussion of methodology.)
